## Why did you decide to go to University?

In order to prepare yourself for what comes next, the future.  
And the future is the real world.

At Universidad Europea, we focus on the **professional** that you want to be and on providing you with a **practical training** that enables you to work on your future from day one.

We call for your own **progress and development**, for you to go beyond, offering you the help you need but never forgetting that you are in the driving seat.

This makes Universidad Europea **more than just a university**.  
And you **more than just a student**.

**Go beyond**

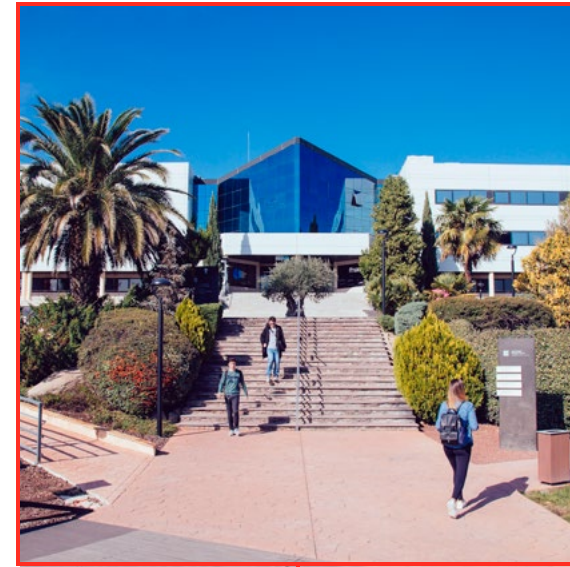

# Campus

**Madrid.** ALCOBENDAS  
**BUSINESS AND UNIVERSITY  
GO HAND IN HAND.**

A campus that brings you the reality of being a professional and helps you to get a job placement through agreements with companies.

The meeting point where new initiatives and the most curious minds find their space.

**Madrid.** VILLAVICIOSA  
**STATE-OF-THE-ART FACILITIES  
AND RESOURCES IN AN  
OUTSTANDING ENVIRONMENT.**

Have a unique university experience on our biggest campus. With 33% international students and facilities equipped with cutting-edge resources and technology.

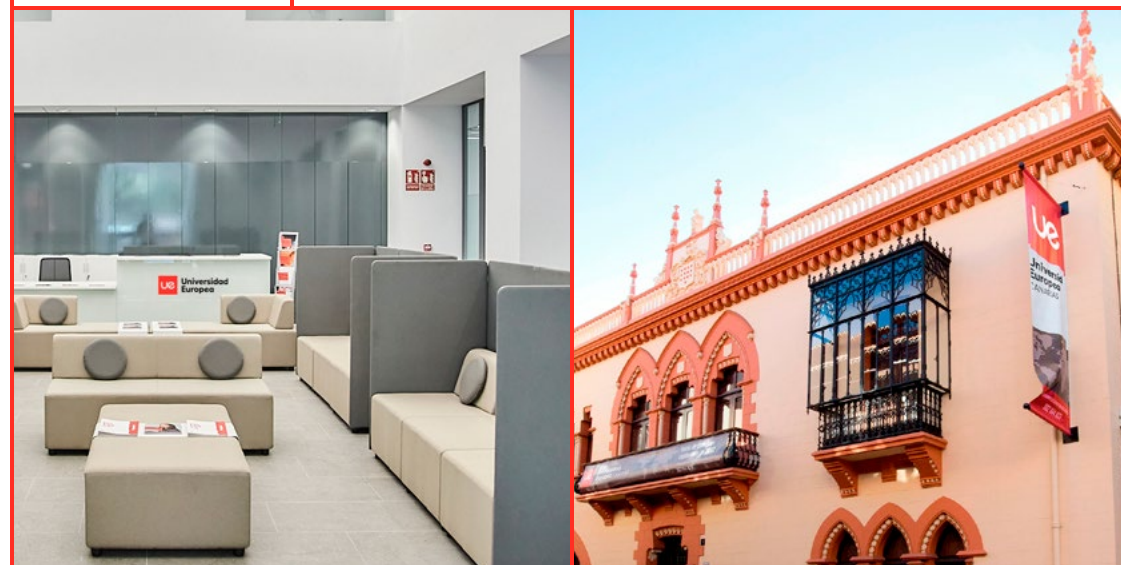

**Valencia.**  
**CAMPUS IN THE HEART  
OF VALENCIA.**

We are the only private university with a **privileged location** in the city centre. We also have our own University Dental Clinic.

**Real Madrid.**  
**REAL MADRID GRADUATE SCHOOL  
- UNIVERSIDAD EUROPEA.**  
Do you dream about working in a field that you're truly passionate about? Get your education at the only Postgraduate School specialized in sports. Don't just dream, get ready.

**Canarias.**  
**CAMPUS IN LA OROTAVA

**100 % online programs:**  
The flexibility you need. Get an education at your speed at the leading University in educational quality and innovation.

# Internationally Recognized Quality

**Be Global**

We want you to imagine how it will be your future as a professional.

We inspire you in figures!

**30%** 

**International Students.**

You'll live in a multicultural environment with an average above other universities.

**300** 

**Agreements.**

You'll be able to study abroad at prestigious universities around the world.

**14,000** 

**Agreements with companies.**

You will be put to the test on campus with challenges, projects and gamification. You will also do an internship to train as a global professional.

Universidad Europea's  
Certifications.

# Medicine and Health Area

## Some questions provide a cure.

The Universidad Europea is highly responsible and committed to training health professionals who empathise in every situation.

We are well aware that we are training the professionals who will drive change in multiple paradigms, finally providing an answer and finding long-awaited cures. In this context, the disruptive DNA of our university is even more significant: If health professionals work together, why don't they learn to interact with one another, internalising the role of each one in a clinical situation or emergency from the beginning? If health is a practical field, why does it take so long to "practise"? If ideas and innovation are essential in this field, why do we not learn to start up projects? If the real world is going to require both knowledge and skills, why are they assessed separately? Some questions provide a cure.

## Experiential learning.

"Learning by doing" at the Biomedical and Health Sciences Faculty is working in simulated scenarios where making mistakes is not a problem but an opportunity to gain confidence and learn. It is understanding that you have to live in the real world and that, in the future, in the real world you will not work alone but side by side with other health professionals.

- You associate theory and practice to foster a comprehensive vision and better assimilation.
- You are assessed objectively to ensure that you acquire your skills.
- You experiment through internships.
- You can have international experiences.

# Bachelor's Degree in Physiotherapy

## Humanisation in Physiotherapy.

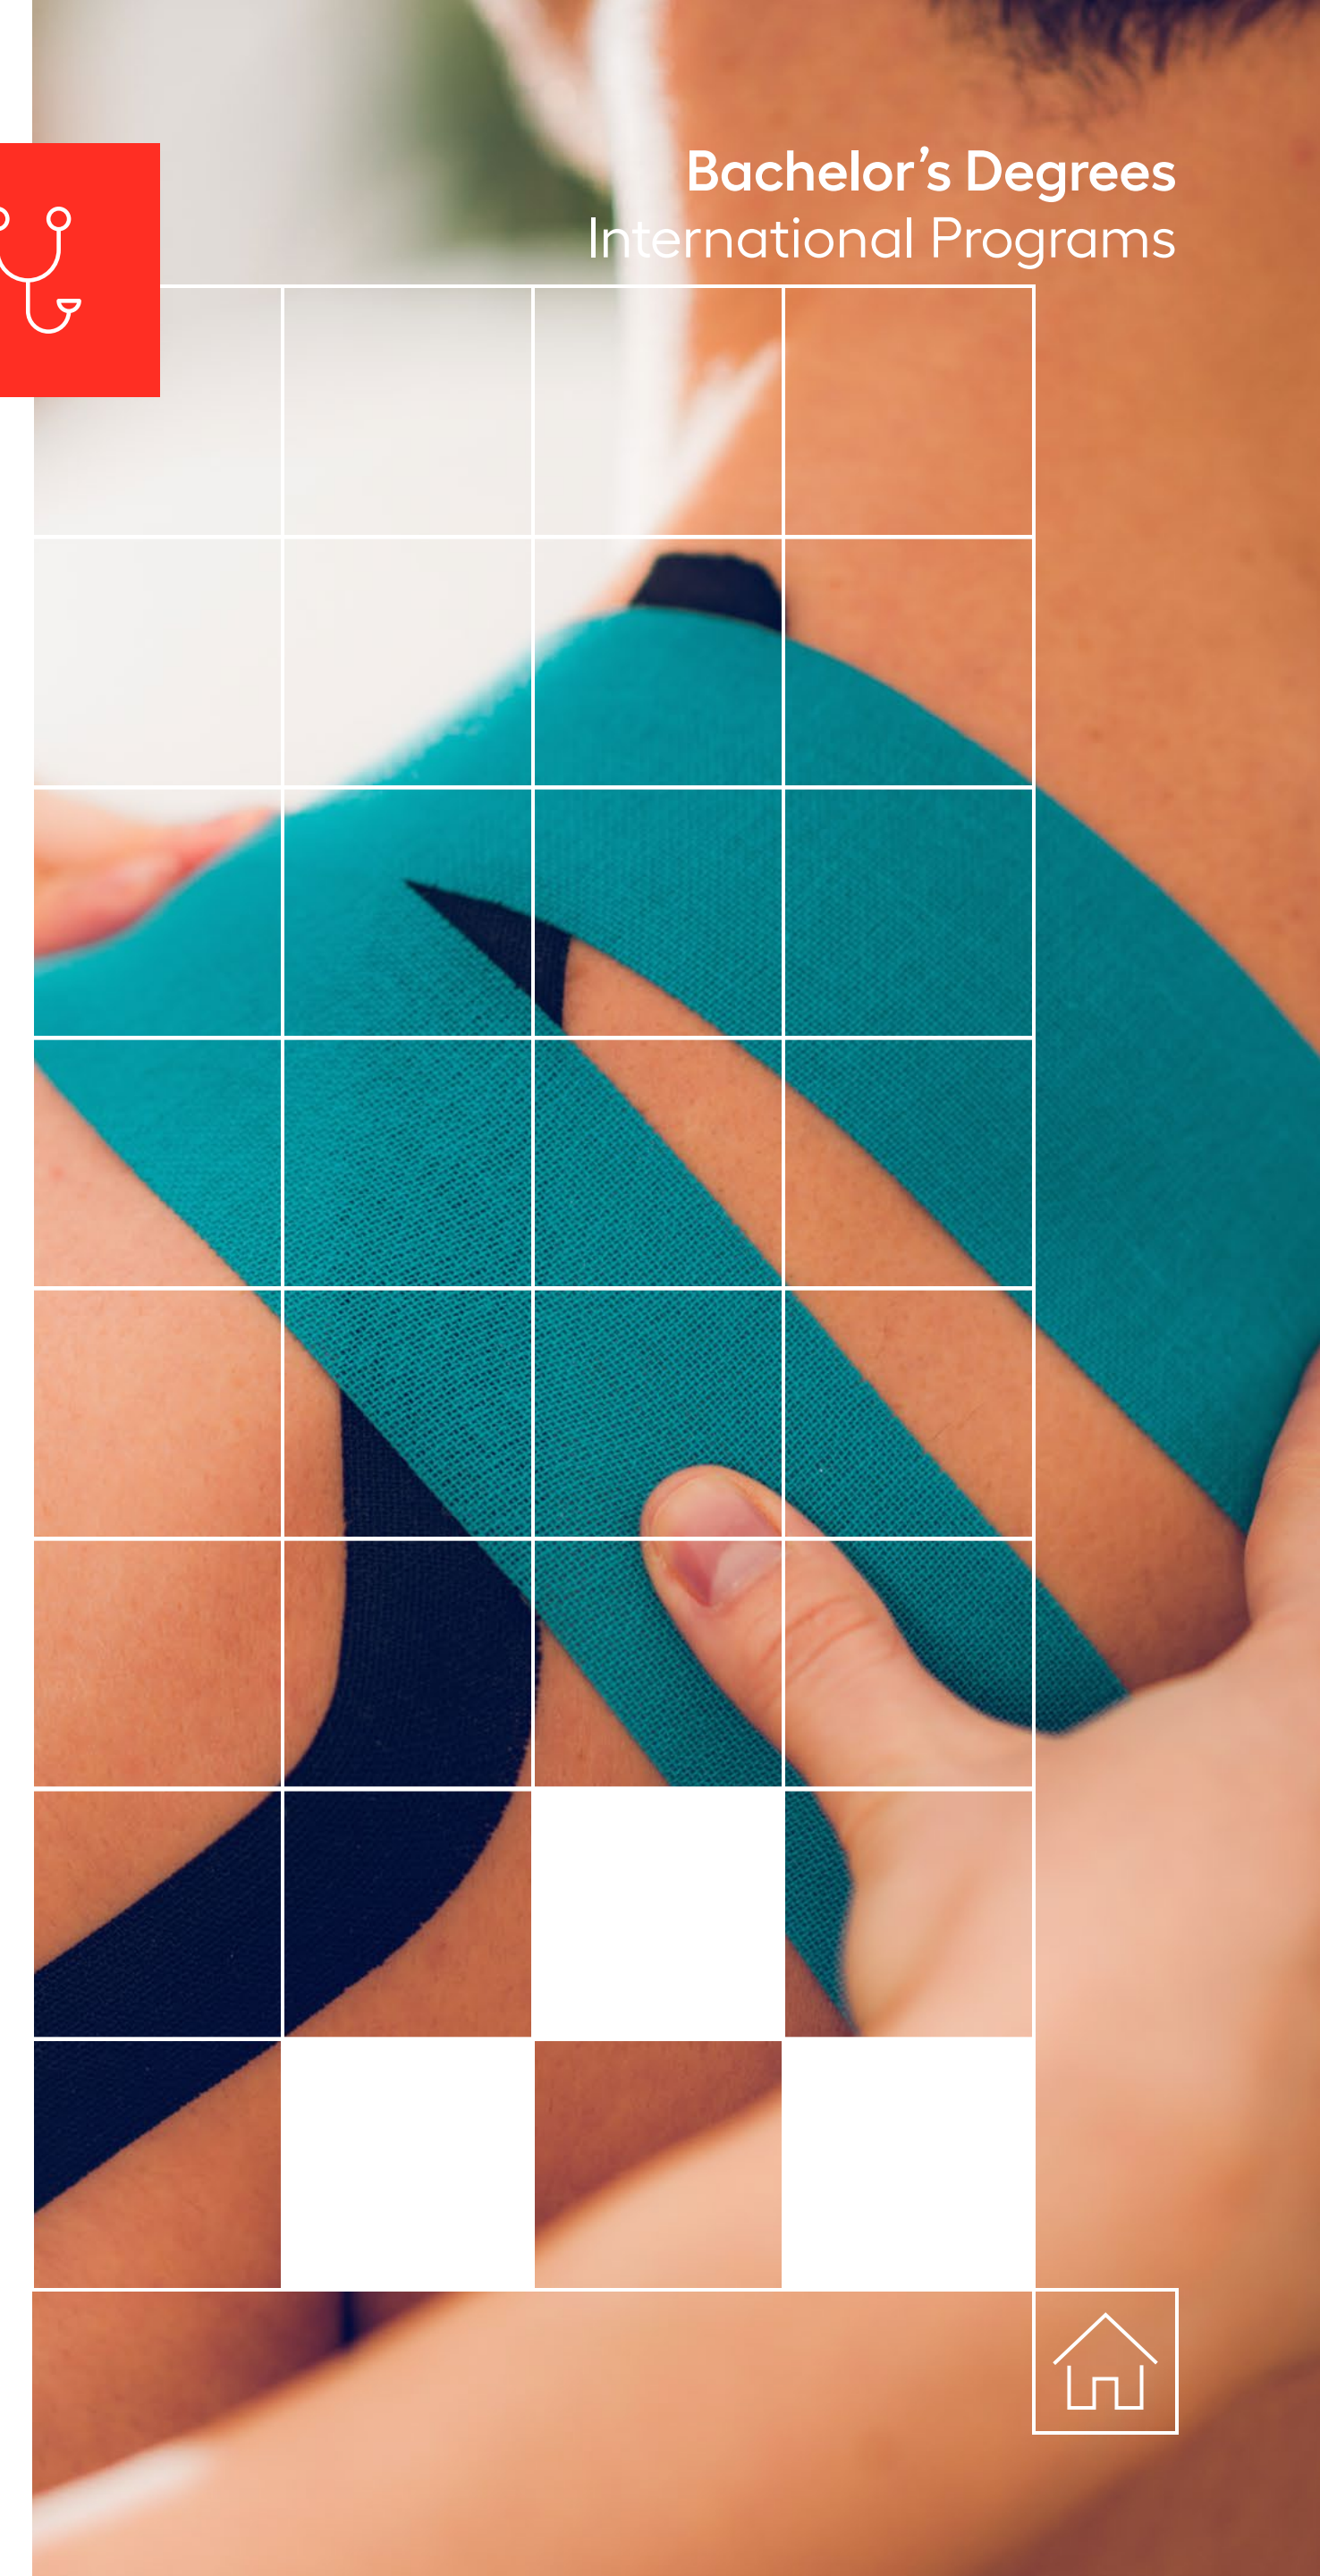

Good physiotherapists are professionals who, in addition to being capable of making responsible decisions based on solid knowledge, must be human, empathetic and have strong communication skills with the patient. They can also diagnose and treat many conditions and impairments. In the current context and thanks to technological advances in this field, we can now, for example, see what is happening in the patient's tissue in real time when applying a physiotherapy technique or manoeuvre, which provides personalised confidence in and evidence of the treatment.

## Health professionals committed to care quality.

You will be trained to assess and treat a patient who has suffered an injury or impairment and also to engage in health promotion and prevention, seeking to protect people's quality of life.

The biopsychosocial model in Physiotherapy fosters active participation of the patient and helps us to identify all personal and social aspects associated to their problem.

	<b>LOCATION</b> Villaviciosa de Odón, Madrid		<b>MODALITY</b> Campus-based
	<b>STARTS</b> September		<b>DURATION</b> 4 years
	<b>LANGUAGE</b> English/Spanish		<b>ECTS</b> 240

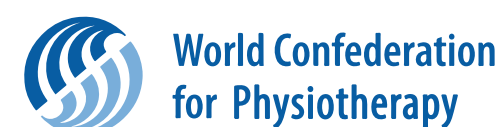

# What makes us different?

## Bachelor's Degree in Physiotherapy

### National and international seal of quality

Study the only degree in Spain accredited by the World Confederation for Physical Therapy, an institution that represents the physiotherapy profession in the world. This seal of quality is a guarantee that we meet the most demanding international academic quality standards: teaching staff, syllabus, academic model, internships, clinical centres, etc.

**The Universidad Europea has been ranked the 2nd best in Spain and the top private university for Physiotherapy training, according to the league table compiled by El Mundo newspaper 2021.**

**ELMUNDO**

### Innovative academic model

We train confident professionals, in a safe environment, simulating multiple clinical cases that you will find in real practice in order to work on your skills, emotions and decision-making capacity, where patient safety is our priority.

You work in interprofessional teams with other students of Medicine, Nursing, Pharmacy, Psychology, Physiotherapy, etc., as happens in real life. You ensure you have achieved the learning goals through skills assessments: Objective Structured Clinical Examination.

### Physiotherapy in two languages

During the first two years, you will study this degree in English, while you reinforce your level of Spanish to carry out the internships and classes from the third year onwards, completely in Spanish.

### Unique and international

Many of the classes are taught in the physiotherapy, biology, anatomy, exercise physiology and biomechanics laboratories, dissection room, stretcher room or in the Simulated Hospital, equipped with consultation rooms, A&E, intensive care, hospitalisation, physiotherapy consultation rooms, etc., and with the most advanced technology: ultrasound scanners, haptic simulators, robots with physiological response, etc.

All of this is given by physiotherapists with clinical and teaching experience and who give classes on their area of specialisation.

# What makes us different?

## Bachelor's Degree in Physiotherapy

### Top quality internships

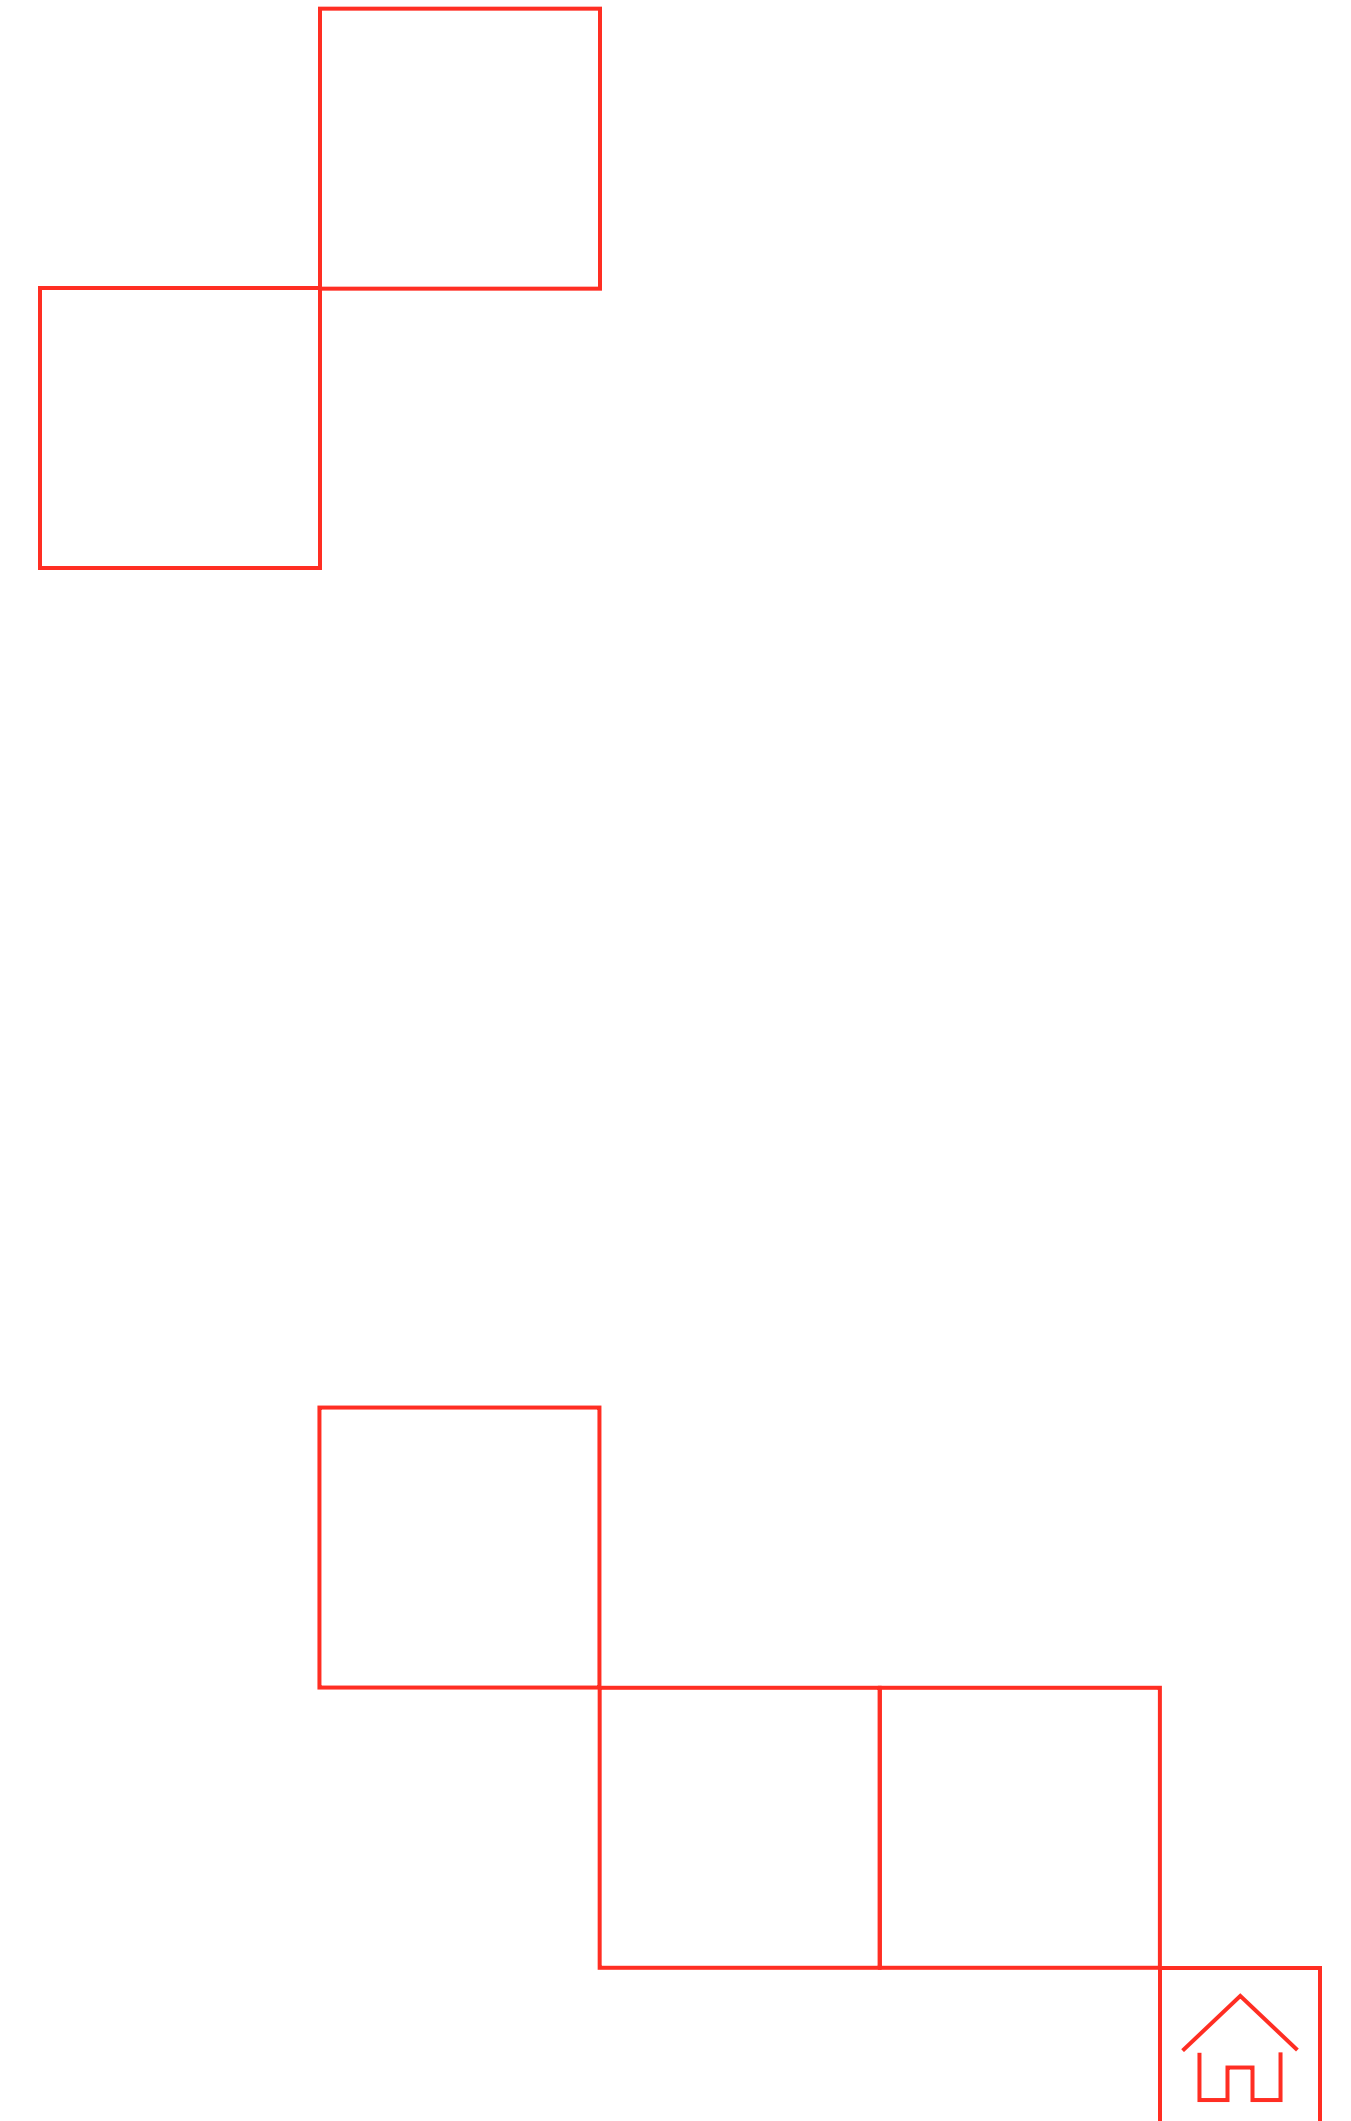

In addition to the theory and the 700+ hours of practical simulation that you receive from the first year, you will also benefit from 1,200 hours of practical clinical training from the 2nd year, with special rotations in the neurology and cardiorespiratory area.

You can do these internships in the 50+ health institutions with which we have collaboration agreements in major public and private hospitals in Madrid: Hospital Universitario Niño Jesús, Hospital Universitario Puerta de Hierro, Fundación Jiménez Díaz, the CEMTRO clinic, and others.

### Fostering research

Take part in projects carried out in the Research Groups on musculoskeletal pain and motor control and physical therapy and health sciences.

In addition, Fundación Dr Pedro Guillén and the Universidad Europea reward the best end of course research carried out by Physiotherapy students.

# Curriculum

## Bachelor's Degree in Physiotherapy

Subject	Type	ECTS	Language
<b>FIRST YEAR</b>			
▪ Human Body Structure and Function	BA	12	EN

## Plan your carrer from the start

Now that you are starting university, you have an excellent academic offering from the beginning that once you have finished your bachelor's degree, gives you the option of specialising through a comprehensive offering of Postgraduate courses adapted to the real professional world.

The university is dedicated to our students and we undertake the commitment to support their personal and professional growth and development.

# AVANZ<sup>^</sup>

For this reason we launched the **AVANZA Plan**, a specific study grant programme for undergraduate students at the Universidad Europea who want to continue their studies by advancing to the next level and doing a Master's or Postgraduate degree with us.

30 programmes to choose from, including master's degrees and expert courses in all areas of Health.

And if you want to reach the top, you can do a PhD in Biomedicine and Health Sciences and a PhD in Medicine and Surgery.

You can get more information by consulting the web, with your Bachelor's advisor  
and on the phone: **+34 917 407 272.**

# Admissions Process

## Documentation

To start the admissions process, reserve an appointment at: [universidadeuropea.com](http://universidadeuropea.com) or by calling (+34) 917 407 272.

After getting more information, you must submit the required documentation:

- Passport.
- Payment of the admissions fee on or before the day of your appointment.

## What does the entrance exam involve?

- Test to evaluate competencies and skills.
- Language assessment test.
- Motivational survey.

## When will you know if you've been admitted?

You'll get the results of the entrance exam in an Admissions Letter that will be sent to you via email. If you have any questions, you can speak to our New Students Admissions Department: [ads@universidadeuropea.es](mailto:ads@universidadeuropea.es)

## Place Reservation

You are advised to reserve your place within 7 calendar days from receiving the admissions letter.

## Enrollment

All students enrolling for the first time at Universidad Europea for a Bachelor's degree program must open a student file.

The Students Admissions Department will provide the candidate with all of the documents and forms they need to complete their enrollment.

	<b>Personalized Guidance</b>
	<b>Send application and documentation</b>
	<b>Admissions Test</b>
	<b>Confirmation of Admission</b>
	<b>Formal Reservation of a place and enrollment</b>
